

Pathways to Healing

Ending sexual violence through advocacy,
education, and supportive services.

IMPACT REPORT 2021-2022

From the Executive Director

We believe survivors.

This simple phrase is one of the most comforting things a survivor of sexual violence can hear after disclosing they have been assaulted. Believing survivors and supporting them through their healing journey is the core of Pathways to Healing's mission. **With our strong, mission-focused team and supporters like you, we were successful in serving more than seven thousand individuals in our community with a variety of services.**

There are simply too many stories to mention, but allow me to share several with you:

- Working with a survivor to gain enough courage to testify against her perpetrator. His bond was denied after her powerful testimony.
- Providing emotional support to two children as they faced their perpetrator in court; reading their victim impact statements to him and the judge.
- Collaborating with law enforcement and providing emotional support while a survivor described her perpetrator to a sketch artist.
- Educating children on healthy relationships and how to report sexual violence. We had several children disclose sexual abuse following our educational sessions.

We could not have done this work without the community's encouragement and support. Pathways to Healing is always just a phone call away for anyone who has been impacted by sexual violence.

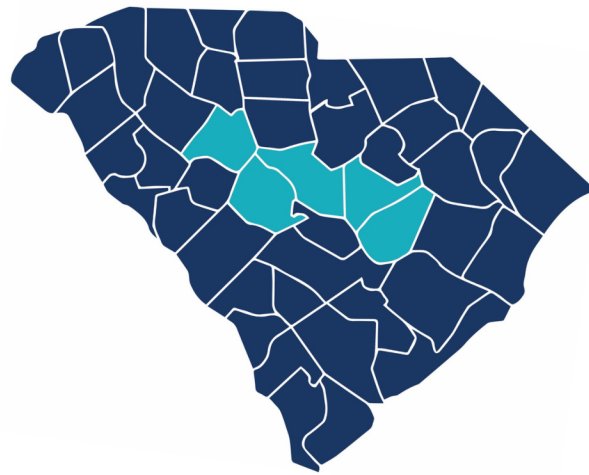

We believe you and are here to support you on your pathway to healing.

Rebecca Lorick, MPA
Executive Director

Services

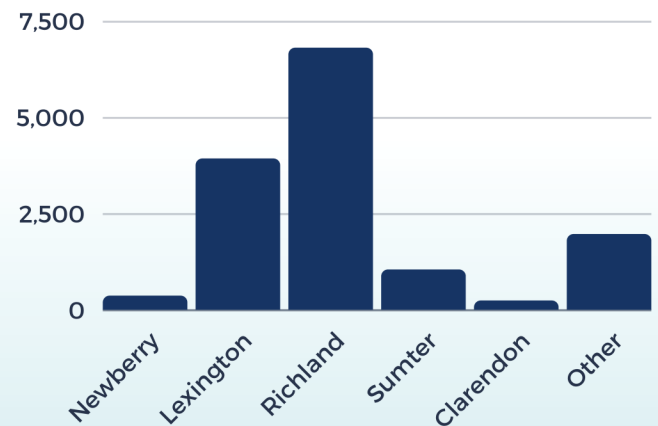

Pathways to Healing serves five South Carolina Counties

Richland Lexington Sumter Newberry Clarendon
